

HOTEL ICEFIORD

★ ★ ★

Nature

Hotel Icefiord is more than what's inside the walls - it is also the surroundings. The hotel is open year round and the seasonal changes this far north are very distinct. During summer the sun shines 24 hours a day. In winter on the other hand it is dark most of the time. But it is never completely dark... The amazing northern light sparkles with its colourfull waves across the sky at night time. No one should go through life without experiencing this unbelievable natural phenomenon.

There is hardly any place in Ilulissat where there is no view of either the Icefiord, Disko Bay or another natural gem. The sea is the central nerve in Ilulissat and it is full of life. Everything from the smallest of plankton, shrimps, fish, seals - to the largest of whales harbours these waters. The whales can be spotted directly from Hotel Icefiord where they pass by on their journey going north or south. There are several species of whales in the area of which some are seen regularly: fin whale, minke whale, humpback whale (baleen whales) as well as narwhale and beluga (toothed whales). The fin whale with its 18-24 m is only exceeded in size by the blue whale.

Several species of seals are found in the Disko Bay region. Seals are generally curious by nature and you often see their heads breaking the surface. When the fishermen approach the harbour or they fish close to the shore huge numbers of fulmars and gulls circle above them. They form large colonies on the steep cliffs along the coast. On land the most common birds are snowbuntings, Lapland buntings, and ravens.

Help us take care of our delicate nature.
Please use the garbage cans.

At Hotel Icefiord we do our best to take care of the environment. We have our own environmentally friendly laundry and we use cleansing agents approved to reduce the impact on the environment.

Hotel Icefiord

During the past years Hotel Icefiord has gone through thorough renovation and enlargement. Today the hotel presents itself as a modern hotel with its roots planted solid in the Greenlandic traditions.

All 31 rooms view the slowly passing icebergs in the Disko Bay. Furthermore, all rooms have showers, toilets, and wireless internet access. During wintertime the fireplace in our lounge crackles. You can spend hours just relaxing and reading while drinking a cup of coffee, tea, cappuccino or cocoa. In summer the hot drinks can be enjoyed on our terrace from where the view hardly get any better. You can follow life at sea where local fishermen in their little boats or vessels bring back the catch of the day.

Hotel Icefiord also hire out 8 individual apartments - also known as Icefiord Apartments - approximately 1,5 km from the hotel itself. The apartments are fully equipped 1-bedroom flats with a kitchenette, shower, and toilet. You can book one of these apartments and enjoy life in the middle of Ilulissat.

Restaurant Icefiord

All year round the restaurant offers a varied menu at both lunch and dinner. All dishes are based on Greenlandic specialities, and every little detail is handled with care. So if you feel like tasting muskox, reindeer, halibut, catfish or something you can only dream of, the restaurant is a must. It is situated with the most spectacular view of Disko Bay - it is difficult to get any closer without falling in. Throughout the year, the restaurant hosts numerous events like Greenlandic buffet, along with beer and wine tasting.

Icefiord Brewery

Hotel Icefiord has its own microbrewery that produce pale and brown ale. A local fisherman delivers ice from the fiord to be used in the brewing. In addition to using home-roasted barley the master brewers experiment by adding crowberries and angelica gathered at Disko Island. Approximately once a month the master brewers start a new brew so you can always get freshly brewed beer on tap.

Conference Center

A conference does not necessarily have to be meetings followed by meetings. If your next conference is held at Hotel Icefiord you have the opportunity to combine indoor and outdoor activities. If time does not allow much spare time you can easily enjoy the spectacular Ilulissat Icefiord just by walking out on the balcony. From here you can see the magic icebergs drifting by in the bay.

Indoor the centre can seat 80 people in theater setting. The conference centre is equipped with all modern facilities: projector, white-boards, touch-screen board and overhead projector. The large room can be split into two separate rooms.

Whether you would like to...

- ...drink a cup of coffee or beer from our own micro-brewery at our terrace while looking at the icefiord
- ...enjoy the cosy atmosphere at the hotel
- ...relax in one of the exclusive rooms
- ...have your next conference at our new conference center
- ...feel welcome at Hotel Icefiord
